EDUCATION

Vignan's Institute of Information Technology (VIIT)
B.Tech in Computer Science & Engineering (CGPA: 9.10)

Visakhapatnam, India
Sep 2023 - June 2027

PROFESSIONAL EXPERIENCE

FULL STACK DEVELOPER

HTS (Halftone Systems)

Hybrid

Feb 2026 - May 2026

- Built a full-stack web application using React, Node.js, and Express.js that included an AI chatbot personal assistant feature.
- Gained hands-on experience in domain integration, real-time website monitoring, API development, and full-stack deployment during internship at HTS.

FREELANCER

Vexamo

Remote

Aug 2025 - Present

- Built more than five responsive full-stack web applications and interactive dashboards, resulting in improved workflow efficiency and enhanced client engagement for professionals and educational institutions.

PROJECTS

CARGOMATE | Logistics Management Platform

[Live](#) | [GitHub Link](#)

It is a full-stack logistics platform connecting truck owners and delivery service providers using React, Node.js, Express.js, and MongoDB. Developed responsive front-end interfaces and scalable backend APIs, along with authentication, database management, and REST API integration for real-time operations.

EMERLANCE | Smart Emergency Response System

[GitHub Link](#)

Built a smart emergency response system using React, Node.js, and Google Maps Platform with real-time ambulance route optimization and automated traffic signal control, where signals turn green as the ambulance approaches. Won a hackathon for innovation in smart healthcare and traffic management.

SAI KULWANTH | Degree College Website

[Live](#) | [GitHub Link](#)

Crafted and deployed a responsive college management website using React, Node.js, and MongoDB. Improved accessibility and optimized performance across multiple devices while integrating modern UI components and scalable backend functionality.

TECHNICAL SKILLS

Programming: Python, JavaScript, C, Java

Frontend: HTML, CSS, JavaScript, React, Responsive Design, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database & Cloud: MongoDB, Amazon Web Services, Google Maps API

Tools & Platforms: Git, GitHub, Google Colab, VS Code, Vercel, Render

CERTIFICATIONS AND ACHIEVEMENTS

- Cisco – Python Essentials 1 & 2, HTML, CSS & JavaScript | EduSkills - Android Development
- 1x Hackathon winner and secured top positions in national-level hackathons, including Build Bharat through AI and events conducted by Google Developer Groups.
